

The Society for AIDS Care
Mask Design Contest Guidelines

1. Background

The Society for AIDS Care organized the first Mask Design Contest in 2011. Mask is used as a symbol of identity protection for people living with HIV/AIDS (PLHIV) due to their fear of discrimination. Participants are invited to learn more about HIV/AIDS and the challenges faced by PLHIV through designing masks, thereby eliminating misconceptions and discrimination. The masks will then be distributed to participants of the AIDS Walk and other public education events, allowing them to better understand the emotional burden symbolized by the invisible masks worn by PLHIV.

2. Objectives

- (a) Promote acceptance of PLHIV through art creation;
- (b) Strengthen participants' knowledge of HIV/AIDS.

3. Theme

Participants should design a mask surrounding the theme of **"Say No to Discrimination!"**.

4. Divisions

- (a) Secondary School Division
- (b) Public Division

5. Registration
